Re: General Permit for Construction of Water Main Extensions for Public Water Systems  
Project: Alpe Warehouse  
FDEP Permit No.: 0124846-085-DSGP  
PWS ID No.: 660-0331  
County: Sumter

Dear Mr. Perez:

The Department has received your Notice of Intent to Use the General Permit to construct a public water supply distribution system extension to serve two commercial buildings. This project consists of a new eight-inch diameter water main. Approximately 1,200 gpd will be provided by the City of Wildwood Public Water System. The Department received this Notice on July 28, 2009.

The Department has no objection to your use of a General Permit for the construction of a public water supply distribution system designed in accordance with the standards and criteria set forth in Rule 62-555.405, Florida Administrative Code (FAC). In accordance with Rules 62-4.530(1) and 62-555.405(1)(a), FAC, construction on this project shall not begin until at least 30 days after the receipt date (referenced above) of Application Form 62-555.900(7). All General Permits are subject to the general conditions of Rule 62-4.540, FAC, (enclosed), and Rules 62-555.405 and 62-555.345, FAC. The construction activity must conform to the description contained in your Notice of Intent to Use the General Permit. Any deviation will subject the permittee to enforcement action and possible penalties.

If you have any questions or comments, please contact Rafah Alkhatib at (813) 632-7600, extension 333, or via email at [Rafah.Alkhatib@dep.state.fl.us](mailto:Rafah.Alkhatib@dep.state.fl.us).

Sincerely,

Gwen Shofner, P.E.  
Manager  
Potable Water Program
